

Preventive Maintenance Authorization Form

Maintenance of your security alarm system is mandatory per UC Policy 360-35, and is performed twice a year by our qualified technicians. Maintenance consists of visibly checking and physically testing the complete alarm system, including the back-up battery condition, integrity of connections, sensitivity of sensors, and proper communication with UCD Police Dispatch. Service is estimated at \$308.00 per year, unless stated otherwise; larger accounts may cost more, and smaller accounts may cost less. If the price of your service is adjusted, you will be notified.

In the event our Alarm technicians are dispatched for an emergency repair for your alarm system, the billing ID number you have provided below will be used.

If you have any questions, feel free to contact Scott Browne at scbrowne@ucdavis.edu .

The information for your account is as follows:

Department: _____ Location: _____

	System Contact (Code One/Programming)	Billing Contact (Dept. MSO or accountant)
